JUNE 23 - JULY 6

ABOUT CHINA UNIVERSITY OF MINING AND TECHNOLOGY

Founded in 1909, the China University of Mining and Technology (CUMT) is one of the key national universities directly under the administration of China's Ministry of Education. It is also a part of the nation's "211 Project" and "985 Project Innovation Platform for Disciplines of Superiority" as well as "Double First-class" Initiative. These are all national programs designed to support and develop top institutions of higher education in China.

Over a history of 115 years, CUMT has developed a multi-disciplinary system with a focus on mineral and mining engineering among other disciplines in sciences, engineering, arts, management and the like. CUMT has 23 schools and faculties, offering 74 undergraduate programs, 56 master's programs and 26 doctoral programs. The University has more than 3500 members of staff, including nearly 2200 academic staff. The student population is 38600 including 850 international students.

CUMT ranked 54th in the Chinese Mainland (Best Chinese Universities Ranking 2024 published by Shanghai Ranking Consultancy), with Mineral and Mining Engineering ranked 21th (QS World University Rankings by Subject 2024). CUMT has always fostered international exchanges and cooperation with other universities overseas over the past decades. To date, the university has established partnerships with nearly 100 universities worldwide.

Looking ahead, CUMT is positioned to become a world class university with energy and resource characteristics.

The Summer School Program, organized by the International Higher Education Alliance for Mining, Energy, and Environment (AMEE), started as early as 2014. In the past years, CUMT, the main organizer of the program, has always worked hard to bring students the best experience. The combined course modules of engineering and Chinese culture have presented our academic strength by which students really learned a lot, and in the meantime led foreign students to perceive a multi-dimensional China. So far, a total of 363 students from more than 20 universities in 12 countries have participated in this program.

To provide an opportunity for students to know each other and develop friendship, CUMT will continue with this program in 2025 and would welcome students from our partner institutions, the AMEE and the UK-Jiangsu World-Class University Consortium.

ABOUT THE SUMMER SCHOOL

WHAT WILL YOU GET FROM THE SUMMER SCHOOL?

Exceptional opportunity to understand the updated knowledge in the fields of Mining and Safety, Advanced Manufacturing and New Energy. It also provides a platform for you to understand the Chinese culture by learning the courses of Contemporary Chinese Economy, Chinese Culture, Art and Cross-cultural Communication , as well as History of Chinese Architecture.

HOW? Send your completed registration form to the point of contact of your university. We will let you know the next-step-to-do after you are nominated by your university. Individual application is not accepted.

JUNE 22 SUNDAY	JUNE 23 MONDAY	JUNE 24 TUESDAY	JUNE 25 WEDNESDAY	JUNE 26 THURSDAY	JUNE 27 FRIDAY	JUNE 28 SATURDAY	JUNE 29 SUNDAY
REGISTRATION	OPENING CEREMONY	ENGINEERING RELATED COURSE & CHINESE CULTURE RELATED COURSE				CHINESE CULTURE EXCURSIONS	
	JUNE 30 MONDAY	JULY 1 TUESDAY	JULY 2 WEDNESDAY	JULY 3 THURSDAY	JULY 4 FRIDAY	JULY 5 SATURDAY	JULY 6 SUNDAY
	ENGINEERING RELATED COURSE & CHINESE CULTURE RELATED COURSE				CLOSING CEREMONY	DEPARTURE	

*Engineering related course package includes Modern Mining and Safety Technology, Advanced Manufacturing, New Energy and Sustainable City, Rock Mass Investigations; Chinese Culture Related Course package includes Contemporary Chinese Economy, History of Chinese Architecture, Cross-cultural Communication.

*Each course contains 16 class hours of study and all of them will be taught in English. Detailed course information will be sent to the coordinator of partner universities and published on the English website of CUMT at the end of March. The course selection system will also be launched at the end of March.

*Please be advised that you are only allowed to select one course in each course package and get your final marks thereof. However, you are free to attend any other course as auditors.

CHINESE CULTURE EXCURSIONS

SCHEDULE

JANUARY 20	Release of program Information to partner universities
MARCH 15	Deadline of submitting registration form
MARCH 20	Course selection system opens
MARCH 20 ~ MAY 20	Apply for visa to China
JUNE 23 - JULY 6	2025 CUMT Summer School

FEES

Each partner institution will be given a certain tuition-free scholarships quotas. Scholarships will cover tuition fees as well as expenses for accommodation, meals in Xuzhou and Second-class train tickets from the port of entry in China to Xuzhou and vice versa.
