Life in Japan

*How much will it cost for **a Month** in Tokyo Area?*

Advices from International Students at SIT

- Confirm the cost for everything before you come.
- Cost varies upon location of stay
- I think living cost can really vary depending on the people. But, as long as you take control on what you spent (especially on food and transportation), it could be quite affordable.
- SIT is very convenient to study even though Tokyo is quite expensive to live but it's worth it.
